

MFG CUSTOM PARTS KITS

 Mfg. will work with you to design a kit that is tailor fit to your needs as specified by you.

Whether you need operating valves, stationary contacts, lift rods, adapters valve heaters, or complete interrupters,  Mfg. will deliver the parts you need without the parts you do not need; therefore, limiting the possibility of good parts being needlessly changed out and eliminating the lease expense on parts you will not use.

All you need to do is use  Mfg.'s kit request form to check the appropriate box for each item required, fill in the quantities desired and fax in the request to  Mfg. Upon receipt of the request,  Mfg. will pull the requested parts, assemble them as a kit in a re-useable shipping container, and promptly ship them to the location you specify.

This service is available for a large array of circuit breakers.

Call  Mfg. today for your request form.

MANUFACTURING CO., INC. • 7275 INDUSTRIAL PK. BLVD. • MENTOR, OHIO 44060
440 951-0900 • FAX 440 951-0965 • E-MAIL: info@emanufacturing.com
